over the past thirty years the comparative study of policy agendas under the aegis of the comparative agendas project cap has become one of the fastest growing sub field in policy research yet similarly to policy studies in general most of the agenda setting literature focuses on well established democracies this edited volume offers a ground breaking analysis of a hitherto less examined topic in comparative politics the dynamics of policy agendas in socialist autocracy and in hybrid regimes we propose that policymaking in authoritarian and illiberal regimes is different from the practices of democracies which we analyse based on a unique historical policy agendas database built by the hungarian cap team at the centre for social sciences in budapest we find that punctuated equilibrium theory offers a good description of policy dynamics regardless of policy regimes yet punctuations are more pronounced in autocratic and illiberal settings these regime types also share a tendency towards centralization a less efficient use of public information and a suppression of democratic participation in the policy process this book may be of interest to scholars and students of policy studies agenda setting and the politics of authoritarianism

provides a guide to the extensive literature on the war in the east including largely unknown soviet writing on the subject sections on policy and strategy the military campaign the ideologically motivated war of annihilation in the east the occupation and coming to terms with the results of the war offer a wealth of bibliographic citations and include introductions detailing history of the period and related issues for military historians and for scholars who approach this period in history from a socio economic or cultural perspective no index annotation copyrighted by book news inc portland or

for germany's neighbors perhaps more acutely than for observers elsewhere the 1990 reunification of divided germany has raised old memories and new concerns in public and scholarly discourse the shape and influence of these issues are the subject of this unique ambitious book organized into country specific chapters the book offers original expert analyses of germany's relations with seventeen european neighbors as well as with the united states the contributors explore the essential concerns these nations have faced in their

bilateral relations with germany past present and future in their introduction the editors trace both commonality and diversity in various national conceptions of the german question and the ways in which these perceptions in turn generate shared as well as divergent national policy agendas vis a vis united germany
