By the end, you will have a clear understanding of how this contract form can be utilized to mitigate risks, promote clarity, and ensure project success.

What is the FIDIC Red Book? The FIDIC Red Book, officially titled the "Conditions of Contract for Construction," is a standard form of contract primarily designed for building and civil engineering works. First published in 1999 and subsequently updated, the Red Book provides a balanced contractual framework that delineates the rights, responsibilities, and obligations of all parties involved in a construction project. Its primary purpose is to promote transparency, fairness, and clarity in contractual relationships, especially for projects where the design is provided by the employer or client. The Red Book is most suitable for projects that involve traditional procurement methods, where the design is completed before the construction begins.
